

300+ Software / Tech Internships Details India Updated - 2025

I've curated a list of 300+ Computer Science internships (with stipend), based on public placement data from the 2025 batch across India. This information is sourced from college placement cells (Tier 1, 2 and 3 colleges), Reddit, and student-shared spreadsheets.

Why am I sharing this?

Finding credible, up-to-date internship opportunities in India wasn't easy, especially when info is scattered, last good resource was from 2022. This compilation aims to help future students see which companies made offers, the types of roles, and stipend info; especially useful given the uncertainties in the tech job market lately.
