500+ Full-Time Software / Tech Roles - India - 2025 Updated

I've curated a list of **500+ full-time Software/Tech placements** across India, based on verified public placement data from the 2025 graduating batch. This includes **Base Salary and Total Compensation (CTC)** figures wherever available. The data is collected from college placement cells (Tier 1, 2, and 3), Reddit threads, and student-shared spreadsheets.

Why am I sharing this?

Getting transparent and recent information about tech **job offers** in India has been tough — most public datasets are outdated or fragmented. This compilation is intended to help students understand **which companies made full-time offers**, the **roles offered**, and the **compensation details** in a volatile tech job market.
